Experience	Renewaa Pvt. Ltd.	Oct. 2025 - Present
	Software Engineer	Ja - Ela
	- Design, develop, and maintain scalable web applications and backend services for business-critical systems - Implement RESTful APIs, real-time features, and secure authentication/authorization mechanisms - Collaborate with cross-functional teams to gather requirements, design solutions, and deliver high-quality features - Design system architecture and database schemas to support performance, reliability, and scalability - Apply best practices in clean code, testing, and version control to ensure maintainable and production-ready software - Participate in Agile development processes including sprint planning, code reviews, and continuous improvement	
	Renewaa Pvt. Ltd.	April 2025 - Oct. 2025
	Intern Software Engineer	Ja-Ela
	- Contributed to the design, development, and enhancement of an enterprise resource management system (RIMS), transforming it into a production-ready solution - Built and maintained scalable backend services using Go (Gin, GORM) and PostgreSQL, with real-time features and automation workflows - Developed responsive and user-friendly frontend interfaces using modern web technologies and Next.js - Designed system architecture, database schemas, and optimized business workflows to improve system efficiency and usability - Integrated AWS services for deployment, testing, and production-level operations - Collaborated in an Agile environment using Jira and Confluence for sprint planning, task tracking, and documentation - Implemented AI-based data analysis features using LLMs to support predictive insights for organizational decision-making - Explored mobile application development by converting web functionality into a Flutter-based mobile solution - Worked closely with cross-functional teams (engineering, workshop, and management) to gather requirements and deliver high-quality features	
Education	University of Sri Jayewardenepura	April 2022 - Dec. 2025
	Bachelor of Science Honours in Business Information Systems	

Skills	JavaScript	TypeScript	CSS	ReactJS	NextJS
	NodeJS	ExpressJS	Go Lang	Django	MongoDB
	SQL	Flutter	AWS	Docker	Figma

Projects	Lost and Found Reporting System	Jan. 2025 - Jun. 2025
	Stack - MERN, TypeScript, Redux, Clerk Auth, Tailwind CSS	
	https://lfrs-venura-denethprias-projects.vercel.app/	
	Developed a web system to improve the Sri Lankan police's efficiency in handling lost item reports. The system features a user-friendly interface, APIs, business logic, and a structured database, aiming to streamline report management, enhance communication, and boost operational transparency.	
	TechNest E-Commerce Site	Oct 2024 - Feb 2025
	Stack - MERN, TypeScript, Redux, Zod, Clerk Auth, Tailwind CSS	
	https://mebius-venura-denethprias-projects.vercel.app/	
	Implemented an e-commerce website with a streamlined user interface, REST APIs, a robust database, user authentication, and an integrated payment gateway to provide a seamless shopping experience.	
	Renewaa Web Site	
	Stack - NextJS	
	https://www.renewaa.com/	
	Developed the official Renewaa website using NextJS, with a focus on performance, responsive UI/UX, and SEO best practices	
	Personal Portfolio Site	Feb 2024 - Oct 2024
	Stack - React, CSS	
	https://venuraportfolio.vercel.app/	
	Developed a personal portfolio website with a clean UI to showcase my background, education, and projects, including contact options and resume download.	

Certifications	Oracle Cloud Infrastructure 2025 Certified Foundations Associate	Sep. 2025
	Oracle	
	ACE Multicloud Network Associate	Sep. 2025
	Aviatrix	
	Full-stack Engineering for Developers	Feb 2025
	STEM Link	
	Diploma In Computer Hardware & Networking	March 2022
	NextGen Campus, Nugegoda	
	Advanced Certificate Course In Cyber Security & Ethical Hacking	March 2021
	NextGen Campus, Nugegoda	
	Python for Beginners	April 2024
	University of Moratuwa	
	Web Design for Beginners	Jan 2024
	University of Moratuwa
